Based in Metro Manila, Philippines (UTC+8) · **Open to** remote and international roles

KEY HIGHLIGHTS

10+ years Android experience

International clients (US, Australia, Hong Kong)

Lead teams at LalaFood, Taison Digital

Sole engineer on SiteCapture (5M+ projects)

DevOps ownership at SkedGo & Outliant

400+ cities via TripGo SDK integration

TECHNICAL EXPERTISE

LANGUAGES

Primary

Kotlin, Java, Swift

Backend

Python, Node.js, Go

IOS

Platform

Xcode

Language

Swift

Cross-Platform

Dart, C#, XML, Lua

UI

UIKit

ANDROID & MOBILE

Platform

Android SDK

Architecture

MVVM, MVP, Clean Architecture, MVC

Async & Data

Kotlin Coroutines, Flow, RxJava/RxKotlin

Networking

Retrofit, OkHttp, Ktor

UI

Jetpack Compose, XML, Material Design

DI

Dagger Hilt, Dagger 2

Persistence

Room, SQLite (via Room)

Image · Date/Time · Maps

Glide, Joda Time, Google Maps

Background · Testing

WorkManager, JUnit, MockK

Firebase

Cloud Messaging, Crashlytics, Realtime DB, Remote Config

Monitoring

Instabug

BACKEND

Databases

MySQL, PostgreSQL, MongoDB, SQLite

Integrations

Stripe, Crowdin

CROSS-PLATFORM

Frameworks

Flutter, Cordova, Ionic

Flutter stack

Riverpod, GoRouter, Hive, Firebase (Auth, Firestore), PDF/printing

DEVOPS

CI/CD

GitHub Actions, Bitrise, Jenkins

Version Control

Git

METHODOLOGIES

OOP, Software Development, Project Management

OPEN TO

KMP, MVI

English, Filipino

EXPERIENCE

Cross-Platform Engineer

2024

Freelance

- ▶ **POS App:** Built cross-platform Point-of-Sale from scratch—Web, Android, iOS, macOS; in use by a food business for inventory management and personal sales tracking; Flutter, Riverpod, GoRouter, Hive (offline), Firebase (Auth, Firestore), PDF/printing; delivered to client

Senior Android Engineer

03/2023 – Present

SkedGo (MaaS platform) · Contractual

- ▶ **Development & leadership:** Lead Android development for MaaS platform; oversee requirements, timelines, team delivery; review PRs
- ▶ **Product alignment:** Sprint planning with CTO; drive Android codebase and feature parity with refined iOS experience
- ▶ **Accessibility & stability:** Dark mode, flexible text sizing; resolved lifecycle issues, OOM/ANR crashes, Firebase issues
- ▶ **Localization & automation:** Multi-language support via Crowdin; automated translation push/pull through GitHub Actions
- ▶ **DevOps & compliance:** CI/CD pipelines, build automation, release processes; 16KB Play policy, deprecated dependency updates
- ▶ **SDK adoption:** TripGo SDK powers 3+ client apps; TripGo app has 100K+ downloads (400+ cities, 4000+ transport providers globally)

Senior Android Engineer

03/2021 – 03/2023

Outliant (International digital agency) · Contractual

Client: SiteCapture (includes former FotoNotes)

- ▶ **Sole Android engineer:** End-to-end ownership of SiteCapture—field operations platform (5M+ projects, 100M+ photos) for solar, property management, construction across the US
- ▶ **Technical leadership:** Provide direction for applications; migrate and optimize codebases; research viable approaches for updates without breaking existing functionality
- ▶ **Codebase modernization:** Java → Kotlin; Jetpack Compose, Coroutines, Hilt, Room; CameraX, FFmpegKit; deprecation updates; async, thread-safe data handling to eliminate ANRs
- ▶ **DevOps & automation:** Jira–Bitrise integration; Firebase (debug) and Play Store (prod) deployments
- ▶ **Stakeholder collaboration:** Collaborate directly with US-based clients to gather requirements; plot timelines for task iterations

Lead Android Engineer

07/2018 – 03/2021

LalaFood (Lalamove subsidiary — closed) · Makati, Philippines

- ▶ **Product pioneer:** Engineered all apps (User, Driver, Merchant) from scratch; led 1 senior and 1 mid-level Android engineer; 800+ partner merchants; thousands of users in Metro Manila
- ▶ **Architecture:** MVVM, Dagger/Hilt, Room, RxJava/RxKotlin, Kotlin Coroutines; real-time order updates and rider tracking
- ▶ **Maps & notifications:** Google Maps, Directions, Places, Geofencing; Firebase Cloud Messaging, Crashlytics, Remote Config
- ▶ **Operations:** Maintained production apps; CI/CD, code reviews, load/stress testing

Lead Mobile Engineer

11/2017 – 07/2018

Dog and Rooster Inc. (US-based, 250+ clients) · Contractual · Makati, Philippines

Clients: Kingston Media, Hoops247

- ▶ **Product delivery:** Pioneered, redesigned, and released multiple Android and cross-platform apps for US/global clients; Java, React Native, Ionic, Cordova
- ▶ **Projects:** Doughnation (WePay, Google Pay, QR/ZXing); Flipside (business card scanning, Firebase, image processing); Hoops247 (location, timezone); Kingston Media (Ionic—retail marketing, project management app)
- ▶ **SDK integration:** Android Mobile Vision, ZXing; WePay, Google Payment API; Firebase
- ▶ **Cross-functional:** Coordinated with international designers, developers, managers across time zones

Lead Mobile Engineer

04/2016 – 11/2017

Taison Digital (now Upmood) · UN, Manila, Philippines

- ▶ **Product pioneer:** Led and pioneered creation of company's two major apps (Android & iOS) from scratch; served as mobile team's project manager; 1K+ downloads
- ▶ **Domain expertise:** Converted scientific formulae to Java with scientists from Hong Kong; translated physiological data into 11 emotions; migrated PHP backend to GoLang
- ▶ **IoT integration:** BLE with PPG-sensor smart watch; live data to connected users
- ▶ **Team leadership:** Supervised 1 entry-level engineer and 1 trainee

Software Engineer

04/2015 – 04/2016

Codesignate Inc · BGC, Philippines

- ▶ **Client delivery:** Supported senior developers; released multiple Android and iOS apps; worked with PMs; reported progress on sprint basis
- ▶ **Projects:** Smartlife (iOS—movies, music, ePINs, events); Konectik (Android—overseas calls, Flurry, Parse, chat); Sweetspot (location-based coupons); Project ERX (doctor records, prescriptions, PDF generation)
- ▶ **Ownership:** Took over lead; worked with 1 mid-level Android engineer to deliver projects from scratch to production

EDUCATION

Bachelor of Science in Computer Science (Graduate with Honors)

Lyceum of the Philippines University · Intramuros, Manila · 2011 – 2015

Jose P. Laurel – Sotero H. Laurel President Scholarship · Lyceum of the Philippines University – Manila · March 2011

PROJECTS

SkedGo / TripGo · [Website](#) · [Google Play](#)

MaaS—TripGo, ODIN PASS, Choose How You Move. **100K+ downloads**. 400+ cities, 4000+ providers. TripGo SDK: 3+ client apps.

SiteCapture (Outliant) · [Website](#) · [Google Play](#)

Field operations—photo capture, CRM integration. **10K+ downloads**. Solar, property management, construction.

LalaFood Apps (Lalamove — closed)

User, Driver, Merchant ecosystem—Metro Manila's largest food delivery platform. **800+ merchants**. Real-time order updates, rider tracking.

Upmood (Taison Digital) · [Website](#) · [Google Play](#)

Emotion-tracking wearable app; PPG + BLE; 11 emotions. **1K+ downloads**.

Kingston Media (Dog and Rooster) · [Website](#) · [App Store](#)

Ionic cross-platform—retail marketing, project requests & management. Brand-specific visual marketing tool.

Hoops247 (Dog and Rooster) · [Website](#) · [Google Play](#)

Basketball community app—courts, pickup runs, groups. Location and timezone-based functionalities.

POS App (Freelance)

Cross-platform Point-of-Sale—Web, Android, iOS, macOS. In use by a food business for inventory and sales tracking. Flutter, Riverpod, GoRouter, Hive, Firebase (Auth, Firestore), PDF/printing.

MENTORSHIP & LEADERSHIP

Ground Gurus · Coding Bootcamp Mentor (2017–2018) · Android Development

Junior Philippine Computer Society · Founder & President · Lyceum of the Philippines University

Outreach: Dumagat community, General Nakar, Quezon—education, supplies, technology introduction.
